-----------------	----------------------	--------------------------------	--------------	----------------------------------	--------------------------------

THANK YOU FOR CHOOSING ANGELO TERMITE & CONSTRUCTION COMPANY, WE STRIVE FOR PERFECTION AND EXCELLENCE IN THE PERFORMANCE OF ALL INSPECTIONS & CORRECTIVE WORK. WE HAVE COMPLETED A CAREFUL VISUAL INSPECTION OF YOUR STRUCTURE(S) AND HAVE SELECTED THE BEST MEANS OF CORRECTION, AS OUTLINED IN THIS REPORT. IF YOU HAVE ANY QUESTIONS, PLEASE FEEL FREE TO CONTACT OUR OFFICE AT (800)-589-8809.

Except as otherwise reported herein, no indications of adverse conditions were noted on the visible surfaces of the inaccessible areas. Since no such evidence was found to warrant removal of furniture, floor coverings, and/or the opening of hollow walls; spaces between floors and ceiling; soffits; porte cocheres; enclosed bay window; buttresses; built-in cabinet work and other finished segments of the structure, an inspection of these areas are not deemed practical, and is therefore, not included in this report. Angelo Termite & Construction recommends all items on this report to be completed. Angelo Termite & Construction assumes no responsibility for infestations, infections, or damage resulting from any items not completed by this company.

ANGELO TERMITE & CONSTRUCTION WILL NOT CERTIFY WORK COMPLETED BY OTHERS

A reinspection performed by Angelo Termite & Construction for work completed by others, does not warranty or certify such work. All warranties and guarantees must be issued by person(s) that performed such work. A reinspection fee of \$75.00 (per trip) will be charged.

Local treatment is not intended to be an entire structure treatment method. If infestations of wood-destroying pests extend or exist beyond the areas of local treatment, they may not be exterminated.

As structural repairs are performed, every attempt will be made to match existing wood sizes & finish, however, some replacement material size & finish may differ from the original construction material. If special milling is required, it may be at an additional cost to owner/management.

During the course of control treatment for Subterranean or Drywood Termites infestations, it may be necessary to drill through the concrete slab or wall voids. It is in agreement that Angelo Termite & Construction is not and will not be held liable or responsible for damage to any plumbing, gas or electrical lines, etc. which may be embedded behind or below such areas. The owner/management does hereby assume any and all responsibility of such damage.

This "WOOD DESTROYING PESTS & ORGANISMS INSPECTION REPORT" DOES NOT INCLUDE MOLD OR ANY MOLD LIKE CONDITION(S). Mold "IS NOT" a wood destroying organism and is outside the scope of this report as defined by the Structural Pest Control Act Rules & Regulations.

THERE MAY BE HEALTH RELATED ISSUES ASSOCIATED WITH THE FINDINGS REFLECTED IN THIS REPORT. WE ARE NOT QUALIFIED TO, AND DO NOT RENDER, AN OPINION CONCERNING ANY SUCH HEALTH ISSUES. THE INSPECTION REFLECTED BY THIS REPORT WAS LIMITED TO THE VISIBLE & ACCESSIBLE AREAS ONLY. QUESTIONS CONCERNING HEALTH RELATED ISSUES, WHICH MAY BE ASSOCIATED WITH THE FINDINGS OR RECOMMENDATIONS REFLECTED IN THIS REPORT, THE PRESENCE OF MOLD, THE RELEASE OF MOLD SPORES, OR CONCERNING INDOOR AIR QUALITY, SHOULD BE DIRECTED TO A CERTIFIED INDUSTRIAL HYGIENIST.

MOLDS, SOMETIMES CALLED MILDEW, ARE NOT WOOD-DESTROYING ORGANISMS. BRANCH 3 LICENSEES DO NOT HAVE A DUTY UNDER THE STRUCTURAL PEST CONTROL ACT & RELATED REGULATIONS TO CLASSIFY MOLDS AS HARMFUL TO HUMAN HEALTH OR NOT HARMFUL TO HUMAN HEALTH, THIS DOES NOT MODIFY THE STRUCTURAL PEST CONTROL ACT OR RELATED REGULATIONS, PER THE SPECIFIC NOTICE FROM THE STRUCTURAL PEST CONTROL BOARD, DATED MAY 2002.

"NOTICE: The Structural Pest Control Board encourages competitive business practices among registered companies. Reports on this structure prepared by various registered companies should list the same findings (i.e. termite infestations, termite damage, fungus damage, etc.) However, recommendations to correct these findings may vary from company to company. Therefore, you may wish to seek a second opinion, since there may be alternative methods of correcting the findings listed on this report that may be less costly."

A SEPARATE REPORT IS DEFINED AS SECTION I & SECTION II CONDITIONS EVIDENT ON THE DATE OF INSPECTION:

SECTION I: contains items where there is evidence of active infestation(s), infections(s), or conditions that have resulted in or from infestation(s) or infection(s) on the date of inspection.

SECTION II: contains conditions deemed likely to lead to infestation(s) or infection(s), but where no visible evidence of such was found on the date of inspection.

**STATE LAW REQUIRES THAT THIS CHEMICAL DISCLOSURE BE DISTRIBUTED
CAUTION - PESTICIDES ARE TOXIC CHEMICALS**

Structural Pest Control Companies are required and regulated by the Structural Pest Control Board, and apply pesticides which are registered and approved for use by the United States Environmental Protection Agency and the California Department of Food and Agriculture. Registration is granted when the state finds (based on existing scientific evidence) that there are no appreciable risks if proper use conditions are followed; also that the risks are out weighed by the benefits. The degree of risk depends upon the degree of exposure, therefore, exposure should be minimized .

Exposure can be detected "if within 24 hours following application you experience symptoms similar to common seasonal illness comparable to the flu" should this occur, contact your physician or Poison Control Center (800) 876-4766 , and your Pest Control company immediately. (This statement shall be modified to include any other symptoms of over exposure which are not typical of influenza.) By authorizing the outlined recommendations herein, it is to be understood that there are no chemical sensitive occupants.

-----------------	----------------------	--------------------------------	--------------	----------------------------------	--------------------------------

"This is a separated report which is defined as Section I / Section II conditions evident on the date of the inspection. Section I contains items where there is visible evidence of active infestation, infection or conditions that have resulted in or from infestation of infection. Section II items are conditions deemed likely to lead to infestation or infection but where no visible evidence of such was found. Further inspection items are defined as recommendations to inspect area(s) which during the original inspection did not allow the inspector access to complete the inspection and cannot be defined as Section I or Section II."

Section I

Attic Areas

FINDING: 2A **Evidence of DRYWOOD TERMITES identified at ATTIC AREAS, as indicated on the diagram.**

RECOMMENDATION: 1) PRIMARY (FUMIGATION):
Seal and fumigate the structure with a lethal gas, Vikane, for the elimination of Drywood Termite infestation(s). Remove or cover accessible evidence.

or

2) SECONDARY (LOCALIZED TREATMENT):
Drill and chemically treat visible and accessible infestation(s) with a state registered termiticide, Termidor SC and/or Tim-bor. This is a secondary recommendation in lieu of fumigation, due to being an attached multi-unit structure; possible roof and/or landscape damage and occupant's inconvenience; to be performed per the request of the authorizing parties. Recommendation is considered a below standard measure by the Structural Pest Control Board. Remove or cover accessible evidence.

*** ONE YEAR GUARANTEE ON SECONDARY TREATMENT ***

* SECTION I

FINDING: 2B **Evidence of DRYWOOD TERMITES identified at ATTIC AREAS, as indicated on the diagram.**

RECOMMENDATION: Power dust accessible attic area(s) with a state registered termiticide, Drione/Timbor.
(for control of reinfestations)

FINDING: 2C **Evidence of DRYWOOD TERMITES identified at ATTIC FRAMING, as indicated on the diagram.**

RECOMMENDATION: Topically treat accessible and exposed attic framing areas with a state registered termiticide, Timbor.

Exterior Areas

FINDING: 2D **Evidence of DRYWOOD TERMITES identified at FASCIA, as indicated on the diagram.**

RECOMMENDATION: SEE 2A(1,2)

* SECTION I

-----------------	----------------------	--------------------------------	--------------	----------------------------------	--------------------------------

FINDING: 2E **Evidence of DRYWOOD TERMITE DAMAGE, appears to be extending into Inaccessible Area(s), identified at 2"X8" FASCIA, as indicated on the diagram.**

RECOMMENDATION: 1) Remove & replace damage as necessary.
2) File a supplemental report with additional findings, recommendations, if necessary.
3) Prime to paint.

* SECTION I

FINDING: 2F **Evidence of DRYWOOD TERMITES identified at RAFTERTAIL, as indicated on the diagram.**

RECOMMENDATION: SEE 2A(1,2)

* SECTION I

FINDING: 2G **Evidence of DRYWOOD TERMITE DAMAGE identified at 2"X4" RAFTERTAIL, as indicated on the diagram.**

RECOMMENDATION: 1) Repair damage as necessary.
2) Prime to paint.

* SECTION I

NOTES:

NOTE 1. During the course of wood repairs/replacement, Angelo Termite & Construction Co. will paint replaced material to match existing, providing the matching paint is supplied and on property the day of work; will be performed at no additional costs. RETURN TRIPS TO PAINT ARE NOT INCLUDED AND WILL NOT BE PERFORMED.

ONLY AND ALL WORK PERFORMED BY ANGELO TERMITE & CONSTRUCTION COMPANY GUARANTEED FOR ONE (1) YEAR, UNLESS OTHERWISE STATED

ANY INFESTATIONS / INFECTIONS / DAMAGE IDENTIFIED AT INACCESSIBLE AREAS DURING THE COURSE OF TREATMENT AND/OR REPAIRS, A SUPPLEMENTAL REPORT WILL BE ISSUED, MAY BE AN ADDITIONAL COST TO OWNER

Any and all structurally damaged wood members caused from Termite, Fungus and/or Dryrot, which has been identified and called to the attention of others by Angelo, and which Angelo has not been authorized to remove & replace such damage, will be the responsibility of others, and is not subject to initial or warranty treatments.

If a limited report was requested - Angelo Termite & Construction recommends a further inspection on the entire structure and all accessible evidence of Wood-Destroying Pests be removed or covered.

Angelo Termite & Construction will accept escrow payments up to 30 days from the completion date. Beyond which time, payment is the responsibility of the person authorizing work, also in the event of a cancelled escrow.

WOOD DESTROYING PESTS AND ORGANISMS INSPECTION REPORT

Bldg No. 137	Street Seacountry	City Rancho Santa Margarita	Zip 92688	Date of Inspection 03-07-2018	Number of Pages Page 6 of 8
-----------------	----------------------	--------------------------------	--------------	----------------------------------	--------------------------------

In the event of resale, Angelo Termite & Construction will guarantee property through the original warranty period only- an additional cost may apply for an extended guarantee for the current escrow.

Pre 1978 buildings: Homes and other buildings constructed prior to 1978 are presumed to have lead paint that may cause serious health issues, if disturbed during repairs. Special procedures are required by the US EPA in repairing painted areas where more than 6 square feet in the interior or 20 square feet on the exterior are disturbed. Local and state requirements may be more restrictive. Those doing the repairs are required by the EPA to be licensed Lead Renovators and must follow strict testing, containment, repair, clean up and debris disposal practices. The penalties for violations of the EPA regulations are severe. You will be provided with the EPA pamphlet entitled "Renovate Right - Important Lead Hazard Information for Families..." prior to the start of repairs. You will be notified of the additional costs of compliance. If you have any questions please contact us.

"WARNING: Areas of wood being repaired contain a chemical known to the State of California to cause birth defects or other reproductive harm. Drilling, sawing, sanding or machining wood products generates wood dust, a substance known to the State of California to cause cancer."

Where notification is required under Section 8538 of the code, and the premises on which the work is to be performed is a multiple family dwelling consisting of more than 4 units, the owner/owner's agent shall receive notification and other notices shall be posted in heavily frequented, highly visible areas including, but not limited to, all mailboxes, manager's apartment, in all laundry rooms, and community rooms on all external pest control servicing. Complexes with fewer than 5 units will have each affected unit notified. Any pest control servicing done within a tenant's apartment requires that the tenant be notified according to Section 8535 of the code. This is the responsibility of the owner/owner's agent.

A visual inspection was performed of the second story eave area(s). Area(s) were not probed due to height. The exterior is inspected from ground level only.

The exterior surface of the roof will not be inspected. If you want the water tightness of the roof determined, you should contact a roofing contractor, licensed by the Contractors State Licensed Board.

If building permits are required, it will be an additional expense to the owner.

Angelo Termite & Construction will reinspect this property within a four (4) month period, if requested, a reinspection fee will be charged. The reinspection will be performed within (10) working days of request.

Angelo Termite & Construction will reinspect repairs completed by others within four months of the original inspection. A charge, if any, can be no greater than the original inspection fee for each reinspection. The reinspection must be performed within ten (10) working days of request. The reinspection is a visual inspection, and if inspection of concealed areas is desired, inspection of work in progress will be necessary. Any guarantees must be received from parties performing repairs.

In case of fumigation, it is to be understood this company subcontracts this service to a licensed Branch I Operator (fumigator). Our costs are for administration services & the scheduling of the provided services.

If fumigation is required by the owner at a later date, Angelo Termite Company will not be responsible for overnight lodging or any roof damage, plant damage, etc., that may occur during the fumigation process.

Stall shower(s) tested in accordance with Section 1991-(12), (where applicable). No evidence of leakage through sub flooring or wall could be found. This is a report of the condition of stall shower(s) at the time of this inspection. It should not be construed as a guarantee.

Sunken slab constructed stall shower was not tested due to type of construction.

WOOD DESTROYING PESTS AND ORGANISMS INSPECTION REPORT

Bldg No. 137	Street Seacountry	City Rancho Santa Margarita	Zip 92688	Date of Inspection 03-07-2018	Number of Pages Page 7 of 8
-----------------	----------------------	--------------------------------	--------------	----------------------------------	--------------------------------

Angelo Termite & Construction is in no way altering or modifying the drainage of the deck(s) during such repairs, therefore, this company is not liable for future drainage problems.

During the course of repairs, landscape and/or rain gutter damage may occur. Angelo Termite & Construction can not & will not be held liable for any such damage.

Although every precaution will be exercised, some landscape damage close to the structure may occur. Angelo Termite & Construction can not be liable for any such damage.

Angelo Termite & Construction is not responsible for drywall / plaster damage, these conditions are considered a maintenance item. Others to correct, if necessary.

Fences not inspected, unless otherwise stated in this report.

Portions of the structure were inaccessible due to heavy foliage. (if applicable)

ONLY AND ALL WORK PERFORMED BY ANGELO TERMITE & CONSTRUCTION GUARANTEED FOR ONE (1) YEAR, UNLESS OTHERWISE STATED

"NOTICE TO OWNER: Under the California Mechanics Lien Law, any Structural Pest Control Operator who contracts to do work for you, any subcontractor, laborer, supplier, or other person who helps to improve your property, but is not paid for his work or supplies, has a right to enforce a claim against your property. This means that after a court hearing, your property could be sold by a court officer and the proceeds of the sale used to satisfy the indebtedness. This can happen even if you have paid the contractor in full, if the subcontractor, laborers, or supplies remain unpaid. To preserve the right to file a claim or lien against your property, certain claimants, such as subcontractors, or suppliers are required to provide you with a document entitled "Preliminary Notice." General contractors and laborers for wages do not have to provide this notice. A "Preliminary Notice" is not a lien against your property; it's purpose is to notify you of persons who may have the right to file a lien against your property, if they are not paid. The total amount of this contract is due and payable upon completion of the work listed above, unless otherwise specified. Only the authorized work specified is being performed at this time. Angelo's Termite Company will accept escrow payments up to 30 days from the completion date. Beyond which time, payment is the responsibility of the person authorizing work, also in the event of a cancelled escrow.
